

Quality Assurance Manager

Are you Inspired? Mass Timber Career Opportunity:

West Kootenay-based Kalesnikoff is currently constructing a new \$35 million Mass Timber facility between Castlegar and Nelson, B.C. which will use state-of-the-art equipment from Canadian, European and other exceptional manufacturers. This will be the most advanced fully integrated mass timber facility in North America, producing exceptionally high-quality cross-laminated timber and glulam beams. Leading architects, engineers, designers and project managers around the world are increasingly seeking high quality, customized mass timber products to create stunning, sustainable, and energy efficient buildings. We believe Mass Timber will positively transform building design and wood innovation here in North America as it has in Europe and we're thrilled to play a role in this evolution.

If this excites you as much as it does us, we want to hear from you. We are now hiring experienced, skilled and passionate team members to help us prepare for production launch later in 2019 and expand to a full product line by end of 2021.

Role & Objective:

The Quality Assurance Manager will be responsible for guaranteeing we produce superior quality products throughout the operation and also ensure we are maximizing value while staying aligned with our customers' expectations. Safety remains a key focus for our company, and it is expected that you will lead by example and treat safety as top priority in all of your day to day activities.

Responsibilities:

- Develop and maintain quality control programs and ensure we achieve the expectations provided by our customers with focus on continuous improvement.
- Remain in compliance with the standards provided by our 3rd party quality auditors and ensure all required documentation is met and up to date.
- Work with maintenance and operations staff to ensure necessary machine improvements are recognized and repaired in a timely manner so that quality expectations are achieved.
- Conduct daily quality audits on all areas of production
- Develop and maintain quantifiable measures of quality that encompass all aspects of manufacturing, finished products and fiber supply, establish & monitor KPI's and develop action plans to continually improve upon product quality and execute on these plans.

KALESNIKOFF

TIMBER INSPIRES

- Employ a professional and strategic approach when dealing with non-conformance and customer complaints and provide response plans that address immediate non-conformance and implement follow up actions to prevent reoccurrence.
- Provide support to Operations Team Leaders and offer suggestions that improve current processes and reduce costs while considering all variables.
- Provide solutions that generate maximum returns from our raw materials while taking into consideration operational and sales requirements.
- Maintain and utilize all optimization systems to maximize lumber values, grade, and recovery.

Qualifications:

- Preference will be given for post-secondary education in wood products processing, forestry, industrial/structural/architectural engineering or business/operations management
- Experience in wood manufacturing
- Working knowledge of Engineered Wood Product (EWP) and EWP standards including CSA 086, ANSI/APA - PRG 320 Standard for Performance-Rated Cross-Laminated Timber and ANSI Standard A190.1-2012, Standard for Wood Products—Structural Glued Laminated Timber
- Demonstrates strong leadership skills
- Strong team player with excellent verbally and written communications skills
- Strong analytical and mathematical skills with an attention to detail
- Working knowledge of Microsoft Office programs
- Results focused
- CAD experience would be considered an asset

Contact information/how to apply:

The Quality Assurance Manager is a salaried position and will be an integral part of our Kalesnikoff Leadership Team. To apply, please submit your resume and cover letter to hr@kalesnikoff.com by June 14th, 2019.

About Kalesnikoff:

Since 1939 and over four generations, our team has been inspired by forests and the endless possibilities for designing and building with wood. We practice sustainable forest management and are dedicated to preserving the beautiful environment in which we live and work. As one of the cleanest and most well-managed, high-technology specialty mills in B.C., we are committed to supporting our customers, communities and environment while producing some of the finest grain and highest quality softwood lumber products in the world. As an independent, family owned and operated company, we think in terms of generations, not quarters and we recognize that people are our most valuable resource.
